Stutenberg Family

Research Notes February, 1994

At this time I have made only some progress on the Stutenberg line. I'm still trying to positively connect our lines to their immigrants. For the Quincy, Illinois branches, such as mine, I'm still working with two closely related theories, one based on Henry Theodore's obituary and one based on the obituary of John Francis Henry (aka Frank) Stutenberg. Henry and Frank were half brothers, according to Frank's obit.

Some of the published histories of Quincy and Adams County indicate the Stuckenborg's went to the Louisville and Cincinnati area before coming to Quincy. I have met a member of a line from that area working right across the street from me at the University! Her name is Mary Jo Studenberg. She will try to locate some family data that her aunt once did on her branch. We may have common ancestors along the Ohio River.

While visiting Quincy a while back, we found an Illinois Archives Marriage Index printout at the public library. It was printed in 1990 from a computer database. It showed some Stukenberg/burg marriage records in the 1860s-1890s in Ogle County, Illinois, that's just southwest of Rockford in northern Illinois. I recently obtained from the Chamber of Commerce Information booth in the county seat of Oregon, two names of living Stukenberg's. I hope to write to them soon in hopes their ancestors might have travelled up the Mississippi and Rock rivers from Quincy or St. Louis. Adams and Ogle Counties were the only counties listing this surname.

While in St. Louis County a year and a half ago, I did find in the Index of the 1850 Federal Census for that county. It listed some Stubenberg's, Stuckenberg's, and a Studenbergh. I have not had a chance to look at the actual census records yet. We do know, from his federal pension record, that John Francis Henry (Frank) Stutenberg was born 1844 OCT 17 and baptized OCT 27 at the Cathedral in St. Louis.

There are some Stuckenborg's buried in St. Boniface Catholic Church's cemetery in Quincy, IL, which Michele and I visited and photographed. We also visted the Quincy Public Library and the Adams County Courthouse.

There is a lot more to research, such as church records. But for now, this is what I have.

As you read the following, please note the numbers in parens refer to the references listed above. I have shown wife's names with a hyphen, such: "maiden-married" when both are known.

The Boat Records

I may have found two references to a boat passenger list for the year 1839. A microfilm index of the Port of Baltimore (8) in the spring of that year, lists a family group with the same names and near the correct ages. Unfortunately, the microfilm of the actual record seems to be not available. The names listed as traveling together are: Henry, Elisie, Catherine, baby Catherine (1 yr. old), Frank, Joseph, another Elisie and Ber. Abbreviations were used to fit them all on the index card. They are listed as farmers from Germany.

In reference (7), in April, 1839, the names are listed such:

Elisi Stuckenburg, 23, female (probably Elizabeth? Keep in mind that these are German immigrants, probably not fluent in English, so the recorder probably took a lot of liberty in using abbreviations.)

Cather, 30, female (probably Catherine)

Cather, 1, female

Elisi, 23, female

Ber, 60, female (probably Bernadine?)

Joseph, 25, male

Henry, 31, male

Frank, 18, male

These are the names that keep popping up in the Adams County histories and used to name more recent generations. Reference (7) also lists a Mr. Imbusch, 22, about 20 entries before the Stuckenburgs.
